

Math1100 Materials Information

- *Mathematical Applications for the Management, Life and Social Sciences, 12th Edition* by Harshbarger & Reynolds
- **Some sections of Math 1100 will assign Online Homework through WebAssign
Check with your Instructor about their Course**

We are using the Inclusive Access Program for students to obtain a digital version of the textbook and access to WebAssign. How this program works is that students are billed for the course material with their UofU tuition (the textbook is \$40 and WebAssign is bundled with it at no additional cost). Students can access these course materials through Canvas. The Inclusive Access Program makes accessing course materials easier and the prices are less expensive than with other options. Here are a few comments:

- An email will go out to all Math1100 students prior to the first day of class with information on what Inclusive Access is and instructions on how to access their digital course materials.
- Students have the option to OPT OUT, but the default is to opt in. If a student opts out during the first two weeks of class, they will not be charged for the book. If they opt out, the student will be responsible to purchase/rent/borrow the book elsewhere. If their course is using WebAssign, they will be required to purchase WebAssign access
- If a student wishes to order a hard copy of the book, they can talk to Shane Girton (U of U Bookstore) and a copy of the book can be special ordered.
- Lastly, there are a couple copies of the book at the Reserve Desk in the Marriott Library that you can check out for three hours at a time. This is an option for students who prefer to work with a physical book. If your instructor is not using WebAssign (make sure to check), you could also opt out and use this option.

If you have any questions or feedback, please feel free to email me.
